DIRECTOR'S MESSAGE

- * As Director of Zulfiqar Engineering Enterprises (Pvt.) Ltd., I extend a warm welcome to all our valued visitors and stakeholders. It gives me great pride to present an overview of our capabilities and diverse range of services.
- * We reaffirm our unwavering commitment to delivering world-class, cost-effective, and safe engineering solutions to our clients. Our management team remains fully devoted to upholding the highest standards of quality and client satisfaction.
- * Equally important is our promise to safeguard the welfare of our human resources and to ensure the preservation of a healthy environment at every project site where we operate.
- * We live in an era of remarkable scientific progress, where machines shape much of human interaction. Yet, amidst all this, we stand tall—rooted in dedication, integrity, and a sincere commitment to serving our clients with excellence. Winning their trust, appreciation, and satisfaction brings us immense pride and motivation.
- * Since our establishment in 1998, Zulfiqar Engineering Enterprises has steadily grown to become a prominent name in Pakistan's engineering sector. Over the past 27 years, we have successfully executed numerous projects across the country. Zulfiqar Group of Companies — comprising Zulfiqar Associates, Zulfiqar Ali, and Zulfiqar Engineering Enterprises (Pvt.) Ltd. has emerged as a renowned name in the field of HVAC engineering in Pakistan.
- * I take this opportunity to thank all our clients, partners, and well-wishers for their continued support. Your encouragement remains our driving force toward greater achievements.

Warm regards,

Malik Zulfiqar Ali

Director

Zulfiqar Engineering Enterprises Pvt. Ltd.

Vision and Policies

- Our aspiration is to become a sustainably growing and profitable MEP engineers and contractor through building effective and efficient operations in global markets and to consolidate **Zulfiqar Engineering Enterprises (Pvt) Ltd** as a recognized brand in all our fields of activities.
- It is our mission to provide to our customers, value products and Services in the field of Ducting, Cladding and Insulation work
- We Endeavour to achieve this mission by:
 - Having satisfied customers.
 - Continually striving, keeping in mind the market trend.
 - Maintaining good Quality Products, providing safe, healthy and natural environment to our workers.
 - Training our workmen and providing them a for self-actualization.
 - Seeking co-operation of all our vendors and associates in fulfilling our mission.

HSE Policy

- We are committed and understand that the safety and health of our employees have the utmost importance. We are committed to provide and maintain a safe and healthy work environment. To promote safe work practices in its entire operational and work execution processes.
- The management shall generate continual efforts for the improvement and prevention of occupational accidents, through setting of measurable means by adopting benchmarks against the established organizational goals, objectives and targets to review and monitor the performance periodically in order to ensure the effectiveness of the safety management system.

1.Health Policy:

- Our company is committed to providing a safe and healthy work environment for all employees, contractors, visitors, and the community.
- We prioritize the prevention of work-related injuries and illnesses through ongoing training, hazard identification, and risk assessment.
- Employees are encouraged to report any health concerns or incidents promptly to management for appropriate action.
- We promote a culture of wellness and provide resources for maintaining physical and mental well-being.

2.Safety Policy:

- Safety is our top priority, and every employee is responsible for maintaining a safe workplace.
- We comply with all relevant safety regulations and standards, and strive for continuous improvement in safety performance.
- Employees are empowered to stop work if they believe it is unsafe and to participate in safety meetings and training sessions.
- Management provides the necessary resources and support to implement effective safety measures and emergency response plans.

HSE Policy

3.Environment Policy:

- Our company is committed to minimizing its environmental footprint and preventing pollution in all operations.
- We comply with applicable environmental laws and regulations, and strive to exceed minimum requirements where feasible.
- Efforts are made to conserve natural resources, reduce waste generation, and promote recycling and reuse initiatives.
- We regularly assess and monitor our environmental performance, setting targets for improvement and communicating progress to stakeholders.
- All handling, recovery, and disposal of refrigerants (such as Freon or other CFCs/HCFCs/HFCs) are carried out strictly in accordance with national environmental laws and regulations. Intentional venting or release of refrigerants into the atmosphere is strictly prohibited. Certified technicians must use approved equipment for leak detection, recovery, and recycling to ensure compliance and environmental safety.
- This policy is developed and published in accordance with the approved framework of ZEE, as per ZCD4.
- Relevant staff are required to undergo mandatory training and obtain certification for environmentally sensitive operations, including refrigerant handling and management.
- Clear roles and responsibilities are assigned to management and operational staff to ensure accountability in implementing this policy.
- Periodic internal audits and monitoring activities are carried out to verify compliance, assess effectiveness, and drive continuous

HSE Policy

HSE Policy

4. Emergency Response Policy:

- We have established emergency response procedures to address potential hazards, including fire, chemical spills, natural disasters, and medical emergencies.
- Employees are trained in emergency protocols and are aware of evacuation routes, assembly points, and emergency contacts.
- Regular drills and exercises are conducted to test the effectiveness of our emergency response plans and ensure readiness for any situation.
- Management reviews and updates emergency procedures as needed based on lessons learned and changes in operations or regulations.
